PROFESSIONAL SUMMARY

Results-driven **Business Analyst / QA Analyst** with 4+ years of experience supporting **enterprise software delivery**, **cross-functional project coordination**, testing, implementation initiatives, and **case management operations** within complex global environments. Proven expertise in **requirements gathering**, **UAT**, **SIT**, **regression testing**, **defect tracking**, and **stakeholder collaboration** across developers, product owners, vendors, business teams, and end users. Skilled in **JIRA**, **Confluence**, **ServiceNow**, **SQL**, and enterprise **case management systems**, with hands-on experience supporting **Agile projects**, **release coordination**, **process improvements**, and **production support** at. Adept at translating business and technical requirements into **user stories**, **acceptance criteria**, **test plans**, and actionable solutions to support successful software releases, **operational efficiency**, and business objectives.

TECHNICAL SKILLS

- **Testing Types:** UAT, SIT, Regression Testing, Smoke Testing, Functional Testing, Defect Tracking & Validation
- **Tools & Platforms:** JIRA, Confluence, ServiceNow, SharePoint, GitHub, Cognos, IBM Case Management, SQL
- **Project & Agile Practices:** Agile/Scrum, SDLC, Requirements Gathering, Acceptance Criteria Definition, Workflow Coordination, Root Cause Analysis, Release Support
- **Reporting & Operations:** Excel Dashboards, KPI Tracking, Defect Impact Analysis, Test Documentation, Production Support
- **Collaboration:** MS Teams, Zoom, Cross-functional Stakeholder Management, Global Team Coordination (NA, EU, APAC), Vendor Collaboration

PROFESSIONAL SKILLS

- Experienced in designing, executing, and documenting test cases across functional and non-functional testing types including regression, smoke, and UAT in enterprise Agile environments.
- Skilled in identifying, documenting, and tracking defects in JIRA with detailed root cause analysis and fix validation.
- Proficient in collaborating with product owners, developers, and business stakeholders to define acceptance criteria and translate requirements into testing needs.
- Hands-on experience supporting end users and stakeholders through UAT cycles, including issue coordination and resolution.
- Adept at building Excel dashboards to track test progress, KPIs, risks, and defect trends across global teams.
- Strong communicator with proven ability to deliver clear documentation, defect reports, and cross-team updates in remote work environments.

WORK EXPERIENCE

Citi Group (Contract via Iris Software Inc.)

QA Analyst/Business Analyst

Remote

Aug 2021- Dec 2025

- Facilitated UAT, SIT, and regression testing cycles, identifying and documenting 50+ defects with detailed impact analysis and root cause documentation.
- Monitored and supported 30+ weekly incidents, coordinating resolutions across business users, developers, and vendors using JIRA and ServiceNow.

- Created and maintained JIRA epics, user stories, and acceptance criteria supporting 10+ production releases in an Agile environment.
- Acted as primary liaison between internal stakeholders and external vendor (NAVEX), ensuring timely issue resolution and consistent communication.
- Built and delivered Excel dashboards tracking 150+ issues, providing visibility into KPIs, defect trends, risks, and system performance.
- Supported global users across NA, EU, and APAC regions, ensuring consistent issue resolution and communication across time zones.
- Proactively tracked risks, dependencies, and blockers, escalating issues to ensure on-time delivery.
- Participated in Agile ceremonies including sprint planning, daily standups, and retrospectives, contributing QA feedback throughout the development lifecycle.
- Provided documentation and reporting to support stakeholder reviews and release readiness demonstrations.

Virufy

Remote

Web Development Team Lead

Aug 2020 - Mar 2021

- Led a team of 3 developers, coordinating tasks, timelines, and release readiness for a global website used in 10+ countries.
- Translated business and design requirements into technical implementation, ensuring alignment with stakeholder expectations.
- Used GitHub for version control, code collaboration, and managing development workflow.
- Received CEO ‘Extra Mile’ award for strong collaboration and delivery excellence.

Aavia

Brooklyn, NY

Software Development Intern

Jan 2020- Mar 2020

- Developed internal reporting tools using JavaScript and Python to support business teams.
- Gathered and translated stakeholder requirements into functional solutions with usability testing and iterative improvements.
- Documented system changes and workflows to support team adoption.

EDUCATION

New York City College of Technology, CUNY

Brooklyn, NY

Bachelor of Technology in Computer Systems Technology

May 2020

- GPA 3.54/4.00, Magna Cum Laude
- Dean’s List: Spring 2017, Fall 2018, Spring 2019, Fall 2019

Associate in Applied Science Degree with Honors

May 2019
