Professional Experience

[Citi Group \(Contract via Iris Software Inc.\)](#)

Business Analyst/QA Analyst

Remote
Aug 2021 - Dec 2025

- **Gathered and documented business requirements, workflows, user stories, and acceptance criteria**, translating business needs into clear requirements for developers, technical teams, and project stakeholders.
- **Planned and executed UAT, SIT, regression, smoke, and functional testing**, identifying and documenting defects, validating fixes, and supporting quality across **10+ application releases**.
- **Triaged and investigated 30+ incidents and service requests per week**, documenting business impact, troubleshooting details, root-cause findings, and resolution progress to support timely issue resolution.
- **Tracked and analyzed 50+ application defects and 150+ issues**, creating Excel-based reports and dashboards that provided stakeholders with visibility into issue trends, risks, blockers, and operational activity.
- **Collaborated with global business users and cross-functional teams across North America, Europe, and APAC**, coordinating with developers, technical teams, and the external NAVEX vendor to investigate application issues and support resolution.
